INVITATION TO PARTNERSHIP

On behalf of the Organizing Committee and the Scientific Committee, we are delighted to invite you to participate in and to contribute to the 8th European Process Intensification Conference (EPIC2023).

In the coming decades, the chemical process industry will play a critical role in addressing grand societal challenges related to sustainability, human health or availability of food and clean water. The necessary transition of the chemical sector to address those challenges will include, among other things, decarbonisation, the use of renewable energy and raw materials in manufacturing processes and the circular economy. Process intensification presents a critical element of that transition.

The 8th European Process Intensification Conference will be held in Warsaw, Poland, from 31 May till 2 June 2023, and, similarly to the previous editions of EPIC and IPIC events, will present an excellent opportunity to learn about recent implementations of PI in industry, the latest advances in research, and new developments at technology providers. Furthermore, discussions on the state of the art and future perspectives of process intensification will keep you updated on future trends.

We propose three sponsorship levels with different participation as well as advertisement opportunities. The conditions are explained in more detail below. EPIC2023 will provide sponsors and exhibitors with access and exposure to delegates (professors, postdocs, PhD students) in the field of Chemical Engineering, Chemistry and Mechanical Engineering. Sponsorship will enable companies to demonstrate their support and commitment to education and research in these fields.

We understand that the packages below may not necessarily meet each company's individual requirements. We are happy to consider additional sponsorship opportunities to meet specific marketing objectives. Please contact the organizers to discuss tailored

Gold PACKAGE ————— 3 000 euro + VAT

- Exposing the Partner's advertising banner on the first page of the conference website, measuring approximately 180 px (width) x 600 px (length).
- Presenting the Partner's logotype on the conference website and in materials related to the conference
- Link to the Partner's website on the conference website epic2023.pw.edu.pl presenting the Partner's full-page advertisement in the electronic abstract book and conference program (second cover or first pages)
- The possibility of attaching the Partner's information and promotion materials to the conference packages handed out to the conference participants during the registration process on spot.
- Display of the Partner's repeatable, 60-second advertising spot on a large screen in the conference hall between conference sessions and on an LCD screen in the coffee service location during all days of the conference.
- Possibility of placing the Partner's information board (standup) in the conference room, where lectures will be held on all days of the conference.
- Installation of the Partner's exhibition stand with an area of 8 m² in the conference hall during all days of the conference.
- Two free exhibitor registrations, giving access to the conference, catering and evening events.
- Written thanks for co-organizing the project in the form of a diploma.

Silver PACKAGE ————— 2 000 euro + VAT

- Exposing the Partner's advertising banner on the "Partners" website in the conference website with dimensions approximately 180 px (width) x 600 px (length).
- Presenting the Partner's logotype on the conference website and in materials related to the conference
- Presenting the Partner's half-page advertisement in the electronic abstract book and conference program (at the end of the book)
- Link to the Partner's website on the conference website epic2023.pw.edu.pl
- Possibility of attaching Partner's information and promotion materials to conference packages handed out to conference participants during registration.
- Possibility of placing the Partner's information board (standup) in the conference room, where lectures will be held on all days of the conference.
- Installation of the Partner's exhibition stand with an area of 6 m² in the conference hall during all days of the conference.
